Not illustrated. 1889 Excerpt: .one, he himself finds in the propositions which he has adopted from Lotze s theory of cognition, and which form the founda-tion of his own system. But how differently does Lotze himself judge regarding the importance of epistemological questions! In the very work to which Eitschl appeals for the theory of cognition which he defends, that is, in his Logic // and Metaphysics? Lotze takes up a position of most strenuous opposition to all preliminary epistemological investigations.2 The pretentious discussion of theories of cognition, says he in the same connection, has very seldom led to practical results, --it has certainly never originated the methods with the exposition of which it has entertained itself. On the contrary, the problems have themselves necessitated the discovery of methods of solution. He expresses his conviction of the essential unsoundness of efforts to reach a foundation of Metaphysics through the analysis of the psychological conditions of cognition. He thinks we are totally unwarranted in regarding that most obscure of all problems, the problem of the origin of knowledge, and of the psychological conditions which co-operate therein, as one open to easy preliminary settlement or solution, the answer to which should ultimately determine the validity or invalidity of all, or even of individual utterances of reason. The process of cognition and its relations to objects must be subordinated to those primary affirmations which reason, in the form of necessities of 1 Published in 1879. Lotze, Metaphysik, p. 15 ff. thought, imposes upon...
