Createspace. Paperback. Book Condition: New. This item is printed on demand. Paperback. 250 pages. Dimensions: 8.9in. x 6.0in. x 0.7in. This book, written for the curious, peace-seeking reader, shows how universal notions developed through the study of natural complexity, such as multiplicative cascades, bifurcations, chaos, fractal transformations, and self-organized criticality, reveal an impartial, coherent framework to visualize the dynamics and consequences of mankind's actions, including the vital options of order and disorder, peace and anxiety, and unity and division, which we all confront in our lives. Drawing an unforeseen link between the scientific principles and extensive Biblical analysis, Carlos Puente explains how the notions establish a dependable all-inclusive bridge to Christian faith, as the desirable condition for a simple yet fulfilling saintly life can only be attained in the root, the straight, the origin, and the positive, satisfying a few unconventional but memorable geometric adages, as cut the mountains and fill the valleys, come down the chaotic tree, let your transformation be positive and unitive, and let zero be your power, which summarize LOVE to God and neighbor. Three video presentations about the contents of the book and under the title The vital role of science in the new evangelization are available at <http://www.youtube.com/watch?v=VUOBta81EYc>, <http://www.youtube.com/watch?v=qSsPICidHE0> and <http://www.youtube.com/watch?v=60pOc3nRYnw>. Additionally, there is a music video for one of the songs in the book: <http://youtu.be/T0m1CEMJikY>. About the Author: Carlos E. Puente received his Ph. D. from MIT in 1984 and has been a Professor of Hydrology at the University of California, Davis since 1986. His research focuses on understanding natural and man-made complexity. He has authored over fifty publications, including the books *Treasures Inside the Bell* and *The Hypotenuse*. Praise for THE FIG TREE and THE BELL A rare synthesis of informed scientific mindset and...
