Date :2010-10-1. The history of science is a compulsory nine-year compulsory subject. is a very important humanities. Often heard many students complain about too much knowledge of history. remember. difficult to learn. such as test scores does not always ideal. I think. is ultimately a problem of attitude and approach to learning. 1 collate historical clues. build knowledge framework. Vast knowledge of history. we usually learn to master a number of significant historical events. historical figures and historical phenomena. this knowledge throughout the various chapters. scattered in various places as small beads. if we do not timely and line these small beads together. then this knowledge will soon be lost. The knowledge of the series line is the historical development of each chapter clues. With the points and lines. we can build this stage of the overall framework of historical knowledge. (2) read history textbooks. bearing in mind the knowledge in mind. According to read. thinking. plan three steps. Reading is reading materials. generally divided into three levels. The first layer is rough reading. the purpose of this section is to understand the effect of teaching materials. The second layer is read. to understand several aspects of this section about the specific content. The third layer is re-read in-depth understanding of this important and difficult section. Thinking. that is. while being read to. that is his historical analysis. synthesis. comparison. generalization. and thus concluded that the thinking process. Plan is while reading. painting symbols on the side of the textbook. write marginal notes and experiences.
