Not illustrated. 1904 edition. Excerpt: .the other hand, it deals with phenomena only and has nothing to say about the noumenon, or the ultimate reality which underlies the universe as it impresses itself upon our senses, its ignostic position is held up as a proof that it has no better grounds than faith itself for its interpretations and principles. This is a curious medley of opinions. On the one hand science is accused of discovering miracles, and on the other it is accused of helpless ignorance. Both views are, of course, quite wrong. There is nothing more miraculous about, say, Marconi's wireless telegraphy than there is about a steamengine. Clerk-Maxwell and others worked out, by higher mathematics, the theory of electric waves in the ether; Hertz proved their conclusions experimentally; and Marconi put Hertz's experiments on a commercial basis. It is surely a far cry from this...
