- Inflammation has been linked to a number of health problems, including: Cardiac Diseases -- Congestive heart failure, arterial diseases, and many other heart disorders have been linked to inflammation, as the deposits of fat and hormones in the body can cause swelling - which leads to many other problems. Cancer -- Chronic inflammation is one of the many causes of tumor formation, as well as the spread of free radicals and carcinogens. Weight Gain -- Food that isn't digested properly will lead to all kinds of problems, including inflammation caused by obesity. When you weigh more than you should, more pressure is placed on your body than it can handle.
