University of Exeter Press. Paperback. Book Condition: new. BRAND NEW, Spiritual Development in the State School: Worship and Spirituality in the Education System of England and Wales, Terence Copley, How can children 'develop' spiritually and how do their teachers know when 'development' has occurred? This volume traces the roots and growth of school worship and spiritual development from Victorian times and earlier through the 1960s and beyond in order to see how we have reached the present situation. The subject is examined in various contexts: its historical and cultural background; politics and legislation; philosophy and values; curriculum development. The book addresses the problem of how to define spiritual development and the contentious issue of compulsory school worship. It offers new insights and a thesis for the way forward.
